

OLIVE BRANCHES DON'T GROW ON TREES

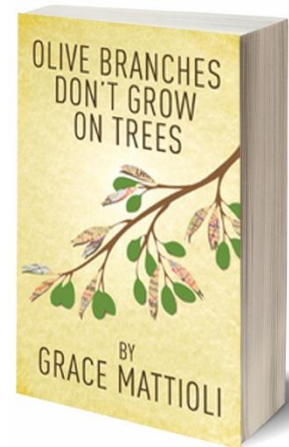

BY GRACE MATTIOLI

Target Audience

Olive Branches Don't Grow on Trees is a funny, heart-warming story with emotional honesty that will appeal to a wide-ranging audience.

However, early feedback indicates that East coast Italian-American women, aged between 25-40 are the demographic that have responded best to the novel.

This is consistent with the novel's strong and personal descriptions of New Jersey, Italian-American family life, and growing up without a 'master plan'.
